

POLISH AMERICAN CONGRESS

Legislative Alert for March 1, 2019

Dear Officers and Members of the Polish American Congress,

I am writing to request that you telephone your *two* United States Senators and your Member of the House of Representatives without delay, by way of their District Offices in your state, using the following message:

"I, ([please state your name and address](#)) respectfully request my (Senator_____, Congressman_____, Congresswoman_____) to inform the United States Department of Defense, which plans to make public its decision on March 15, 2019, that the prompt establishment of permanent NATO bases with United States armed forces in Poland promotes both American national security interests in East Central Europe and our values of political freedom and free enterprise in that important part of the world. Thank you."

In short, this Legislative Alert requires that you make three phone calls, to each of your United States Senators and the other to your Congressman/woman. Please share this Legislative Alert with your relatives, business associates, and friends who you think would make calls as well.
